

EMBRACE, LIVE, AND ENJOY DISRUPTION & DESTRUCTION®

iVEND-NET, LLC

5133 SHEPHERDS GLEN RD, KALAMAZOO, MI 49009

➤ Functionalities:

- Vending of plurality of items.
- Credit- and e-card sales.
- Internet access.
- Directory assistant of location where a vending machine is located.
- Advertisements both on the Digital Billboard Zone and pop ups in the Internet Zone.
- Pop-ups will be pursued and used to populate the Internet Zone.
- All advertisements will be accepted for anything as long as local laws allowed them; local, state, national, and international. For example, **iVend-Net, LLC** will accept advertisements for local garage sales, and political advertisements, etc..
- Vending machines are fitted with alarm systems (starting with 2nd Generation of vending machines) and **iVend-Net, LLC** will charge a fee if an assignee wants the alarm system installed locally.
- 2nd Generation of vending machines will have ATM capabilities.
- Vending machines are equipped with cameras that can be used for face recognition and security. **iVend-Net, LLC** will charge a fee if an assignee wants the camera systems for security to be turned on.
- Complimentary WIFI hotspot within radius of 100 ft.
- The multimedia functionalities will be sublet to companies that want a medium to reach audience for their show. For example, if politicians want their campaigns to be telecast in order to win votes; it could be local, state, national, and international. This function will be available to anybody, party, groups, etc. **iVend-Net, LLC** will be careful and with guidance. If individuals, institutions, or companies want to use the vending machines to broadcast, **iVend-Net, LLC** will make the vending machines available (local, state, national, or international).
- In countries where e-Money is allowed, **iVend-Net, LLC** will vigorously integrate e-Money into its vending machines transfer system. Even though USA does not allow e-Money, some countries in Europe, Asia, South America, and Africa use e-Money technologies for money transfers and receiving. Vending machines will be used for money transfers and receiving for fees.
- Mobile Commerce (mCommerce) will be pursued vigorously by **iVend-Net, LLC** All vending machines will be equipped with capabilities to accept SMS messages, coupons, ability to share and make offers, making purchasing easier, reward points and discounts, “deal of the day” offers, chance to win prizes, use pf polls, surveys and questions requiring only checking/use of radio buttons, and to access and view items on other **iVend-Net, LLC** vending machines within a certain mile radius.
- Voice capabilities and voice recognition with artificial intelligence.
- During the first year of vending machines, assignees will load plurality of items (approved by local laws and **Vend-Net, LLC**) into vending machines and keep all the profits from sales of items. After one year of assigning vending machines, **iVend-Net, LLC** will take over the bulk purchases of plurality of items for vending and resell them to the assignees at prices that will enable them make profit; negotiate lower prices from manufacturers for bulk purchases.
- Work with sports of all kind at local, state, national, and international levels.
- The vending machines will also be used for competition such as singing, jokes, comedy, etc. The company will also work with media houses (such as CNN, FOX, Bloomberg etc.), NFL/NFC, MLB, NBA, MLS, EPL, La Liga 1, Series A, Ligue 1, UEFA, CAF, CONCACAF, FIFA, and major sports companies to show instant live replays of major tournaments and plays.
